💼 Work Experience 🏛 Education ☰ Skills

Very brilliant QA team lead and engineer's summary goes here

Work Experience
8 Years

QA Engineer
2018 – 2019

QA Engineer
2014 – 2018

Head of QA Team
2019 – 2022

2018 – 2019

- ✅ Manual functional, regression and exploratory testing of web applications (add-ons for Jira)
- ✅ Analysis and test design for functionalities under test
- ✅ Working with bugs: localization, creating bug reports, verification of fixes
- ✅ Creating and maintenance of test documentation (check lists, mind maps, knowledge base) in English
- ✅ Working in SCRUM team

2014 – 2018

- ✅ Test planning, creating check-lists
- ✅ Manual testing of new functionality, regression testing
- ✅ Web application and desktop simulation modelling IDE testing
- ✅ Communication with developer team
- ✅ Participation in making of tasks list for the next release
- ✅ Introduced and maintained the testing process in the project (was solely responsible for all test activities)
- ✅ Initiated regular review of tasks lists for big releases that happened every 3-6 months in order to introduce necessary changes in the planned tasks and, as the result, significantly reduced the number of releases that were postponed due to unmet aims

Education

2012

St. Petersburg State University, Saint Petersburg

Statistical Modelling, Applied Mathematics and Informatics
