👤 ABOUT

Very brilliant QA team lead and engineer's summary goes here

🏢 EXPERIENCE

Head of QA Team

January 2019 — January 2022 🕐 3 years

QA Engineer

January 2018 — January 2019 🕐 a year

- Manual functional, regression and exploratory testing of web applications (add-ons for Jira)
- Analysis and test design for functionalities under test
- Working with bugs: localization, creating bug reports, verification of fixes
- Creating and maintenance of test documentation (check lists, mind maps, knowledge base) in English
- Working in SCRUM team

QA Engineer

January 2014 — January 2018 🕐 4 years

- Test planning, creating check-lists
- Manual testing of new functionality, regression testing
- Web application and desktop simulation modelling IDE testing
- Communication with developer team
- Participation in making of tasks list for the next release
- Introduced and maintained the testing process in the project (was solely responsible for all test activities)

- Initiated regular review of tasks lists for big releases that happened every 3-6 months in order to introduce necessary changes in the planned tasks and, as the result, significantly reduced the number of releases that were postponed due to unmet aims

🎓 EDUCATION

Statistical Modelling, Applied Mathematics and Informatics

St. Petersburg State University, Saint Petersburg

</> SKILLS

Testing

Test Design Test Plans

Technical Skills

git Java Python Jira
